Bulbs In Rock Garden

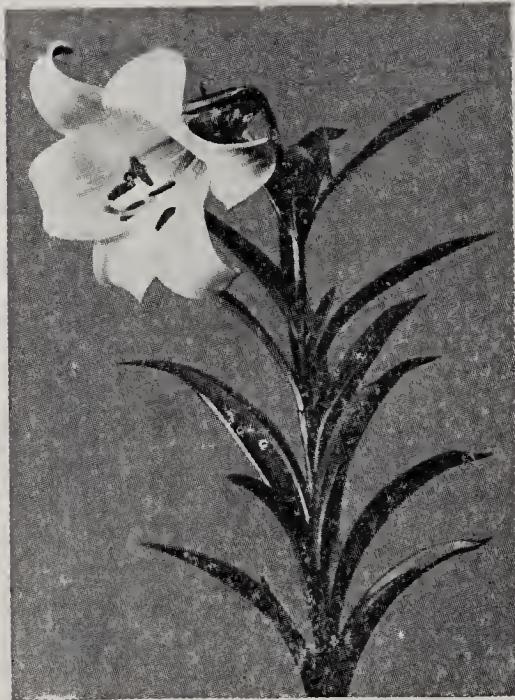

PUGET SOUND GROWN LILIES

The Lily includes some most remarkable species, among which are some of the oldest denizens of our gardens. There are few who have not admired the gorgeous beauties of one or another of the many varieties of Lilies that are here enumerated, or who have not been charmed by the stately purity of *L. Candidum* and its sweet odor, or the magnificence of *L. Regale*.

There is no genus of plants better fitted for any garden than the Lily; they can safely be called the noblest of garden flowers; their conspicuous blooms, striking colors and stately forms appeal to the eye.

AMABILE

A rare species from Korea. The color is grenadin red, freely spotted with black. Well worth while. 35c each, \$2.50 per dozen.

BROWNII (True)

One of the finest Lilies in cultivation with immense trumpet-shaped flowers, inside pure white with brown anthers, exterior deep reddish-brown. Stem-roots. June-July. 3 feet. Please do not confuse this very rare Lily with a Chinese variety much inferior. Blooming size, \$1.00 each; large size, \$2.00 each.

BULBIFERUM

Bright orange red spotted deep purplish black and tinged or blotched yellow in center; anthers red. 2 to 4 feet. 40c each; \$3.75 per doz.

CALLOSUM

Small Turkscap flower, bright scarlet usually slightly dotted purple-black; anthers red or scarlet. Quite rare and should be in all Lily gardens. 35c each; \$3.50 per doz.

COLUMBIANUM

A slender growing Lily from the Pacific Northwest with numerous turban-shaped bright golden-yellow flowers spotted red. Plant about six inches deep in leaf-mold. Base-rooting. Height, 3 feet. July. 25c each; \$2.50 per doz.

CROCEUM (The Orange Lily)

Orange color. June-July. 35c each; \$3.50 per doz.

DAVURICUM

One of the most reliable and hardy Lilies. The open, vase-shaped flowers vary in color from bright red to yellow, with a variety of shadings, more or less spotted with black, and borne in umbels of 3 to 6 on a 2-foot stem. Makes a very pleasing effect in a bed among shrubbery or a rock garden. The first to bloom. May-June. 25c each; \$2.25 per doz.; \$15.00 per 100.

Red Davuricum. Dark red, very special. 50c each; \$3.50 per doz.

EASTER LILY

Seedling from the beautiful *L. longiflorum*, the Easter Lily of commerce. A grand Lily with pure white funnel-shaped flowers often eight inches long. Hardy here and suitable for gardens. 30c each; \$3.00 per doz.; \$20.00 per 100.

ELEGANS (Thunbergianum)

These dwarf growing, early flowering Lilies are admirably adapted for planting in masses, pot culture, and bedding out, their upright, cup-shaped flowers being most effective. Stem rooting. June-July.

Orange Queen. One of the finest forms in this group, very vigorous, bearing one to three flowers of a beautiful bright orange color. The petals are of great substance, very broad and rounded at the ends. The whole flower being of a fine size and having a very fine finished appearance, so very effective in that mass that it would make an excellent bedding plant. 15 inches. 40c each; \$4.00 per doz.

MARTAGON

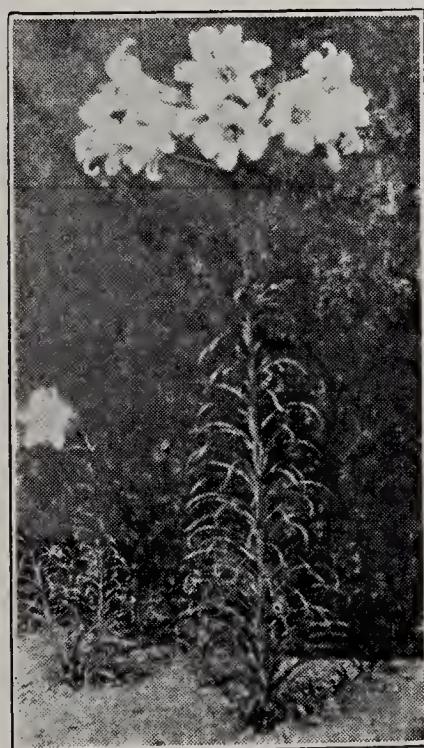

Album. White, 50c each; \$5.00 per doz. Purple, 40c each; \$3.50 per doz.

MONADELPHUM (Szovitzianum)

Soft yellow, very fine spots, anthers, yellow base rooting and should be planted about five inches deep. A wonderful Lily from the Caucasus mountains. One of the earliest Lilies to bloom. 75c each.

ROEZLI

Deep blood red, lightly spotted maroon. 50c each.

SARGENTIAE

A magnificent introduction from China, vigorous and floriferous. The flowers are funnel-shaped, milk-white internally with yellow throat, deep reddish-brown externally; delightfully fragrant; on four-foot stem; in the very front rank of hardy Lilies. Also makes a grand pot plant. Flowers about three weeks later than Regale. Readily succeeds in any good rich soil. Stem-roots. July and August flowering. Medium size bulbs, 50c each; \$5.00 per doz.

SPECIOSUM RUBRUM MAGNIFICUM

White, shaded rose and spotted crimson.

Speciosum, Rubrum Melpomene, Darker than Magnificum. All Speciosums; first size, 50c each; \$5.00 per doz. Second size, 30c each; \$3.00 per doz.

TENUIFOLIUM

(Excellent for rock gardens)

A small, slender growing Lily, not more than 18 inches high, with bright scarlet flowers. One of the prettiest little Lilies in cultivation. Early June. 12 to 18 inches. 25c each; \$1.25 per doz.; \$10.00 per 100.

LILIUM REGALE

One of the most beautiful, and one of the hardiest Lilies in cultivation. "Lilium Regale is truly a royal Lily, worthy of a place in every garden; it is a lover of loam and sunshine." A vigorous grower with sturdy stem; 4 to 5 feet high, densely covered with long, linear-lanceolate foliage. Center of flower flushed with yellow, shading to white at the outer edges; externally the flowers are streaked with brown, shaded through the almost translucent petals with a delightfully pearly tint; the contrast between the rich wine color of the reverse of the petals and the gold shading of the throat is extraordinarily beautiful. Very distinct. Thrives in any good rich soil; does well in limestone soil. Stem-roots. July flowering. Blooming, 20c each; \$2.00 per doz. Large, 25c each; \$2.50 per doz.; Extra large, 50c each; \$5.00 per doz.

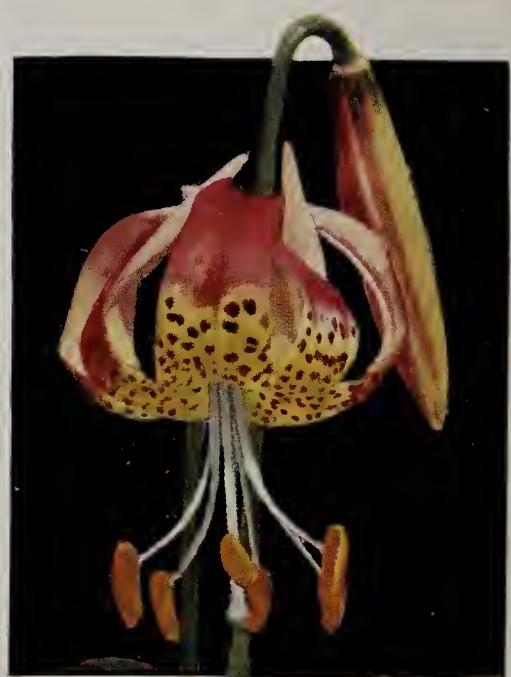

All Prices Include Postage or Delivery Charges

LILIUM SUPERBUM

“Turk’s Cap Lily”

A fine Lily, growing 6 to 7 feet high when established, and producing 12 to 30 bright orange-crimson flowers, recurved and heavily spotted; likes a moist situation. July-August. Blooming size, 25c each; \$2.50 per doz.

LILIUM PARDALINUM

“Leopard Lily”

This is one of the best Lilies of the garden. It thrives well in any soil, but prefers a well-drained, moist situation. The strong stems are very leafy and produce numerous flowers. The petals are recurved, bright red, shading to orange with many rich, brown spots. Hardy and robust. July. 4 to 5 feet. Base-rooting. 25c each; \$2.50 per doz.; \$20.00 per 100.

LILUM HENRYI

“Yellow Speciosum Lily”

Too much cannot be said in praise of this fine Lily. Its constitution is of the hardiest; it is very free flowering, reaching six or more feet in height when established, and bearing up to 20 flowers, which are of a rich deep orange-yellow, very telling in point of color and well set off by the deep green foliage. The fact that it is seen doing so well in so many gardens shows its sound constitution and good flowering qualities. It is one of the best Lilies ever introduced, and one which we confidently recommend. Stem-rooting. August-September, 6 to 8 feet. Blooming, 25c each; \$2.50 per doz. Large, 40c each; \$4.00 per doz. Mammoth, 75c each; \$7.50 per doz.

UMBELLATUM

An early, free-flowering Lily with large umbellate heads of flowers, easily grown. Stem-rooting, June-July. 2 feet.

Erectum—Red petals flushed orange;

DR. DAVID GRIFFITH'S FIVE NEW HYBRID LILIES

These five Lilies are all derived from *Lilium Humboldti* cross pollinated with *P. Pardalinum*. The names applied are commemorative of things northwestern, designed to tie the varieties up with the magic land in which they originated. Varieties as follows:

Shuksan. Irregularly reflexed, true Martagon; cadmium with a faint flush of red dots showing faintly, anthers purplish red, orange pollen. 4 to 5 feet.

Kulshan. The most densely and uniformly spotted of any of these spotted Lilies, true Martagon, tightly reflexed, deep cadmium orange with reverse same color but duller, with dots showing through prominently on edges, prominently ridged in throat, green at base, spotted black in throat, becoming more red outward and covering the petals nearly or quite to the tip. Anthers purplish red, pollen mars orange; 5 to 6 feet.

Douglas Ingram. True Martagon in position and strongly reflexed, orange red, clear deep cadmium toward throat with

All of the above hybrids \$2.00 each; one each of the five for \$8.00

very free and vigorous.

Sappho—Dark orange-red, tips of petals flushed red.

Apricot—Large cup-shaped flowers of a beautiful shade of clear apricot-yellow, borne in large heads.

30c each; \$2.50 per doz.; \$2.00 per 100.

TESTACEUM (Nankeen Lily)

One of the choicest of all Lilies, bearing 6 to 12 strongly recurving flowers of a beautiful warm shade of Nankeen yellow. Very scarce. The bulbs should be planted shallow. June-July. 4 to 6 feet. Small bulbs, \$1.00 each.

TIGRINUM SPLENDENS (Tiger Lily)

A large form of the old garden favorite of old-fashioned gardens. The color is orange-red spotted purple on reflexed petals. Strong and hardy and the latest to bloom of all the Lilies. August-September. 4 to 5 feet. 25c each; \$3.00 per doz.; \$10.00 per 100.

WASHINGTONIANUM

A beautiful Pacific coast Lily flowering in late June. The fragrant flowers open white, turning purplish pink as they age; 25 or more flowers are carried on good stems. Blooming size bulbs, 50c each; \$5.00 per doz.; large, 75c each; \$6.00 per doz.

an overlay of dull red outwardly over-distal third of petal which is nearly or quite free of spots, the throat moderately ridged with faint tinge of purple on edges, pollen cadmium yellow. 3 to 4 feet.

Sacajawea. This variety differs from *Kulshan* in glossy foliage and petals more pronouncedly red-spotted instead of black. In stature it is similar to *Star of Oregon*, but spots do not coalesce so much and are different. Orange with flush of red. 6 to 7 feet.

Star of Oregon. True Martagon, reflexed, cadmium orange, throat broad ridged, green at base, spots extending over entire petal, black in throat, anthers purplish, pollen orange. 6 to 7 feet.

WILLMOTTIAE

We cannot speak too highly of this beautiful Lily. It has proved to be of strong and vigorous constitution and so freely does it flower that it should find a place in every garden. It grows to a height of 4 feet and bears about 20 flowers on a stem. The flowers are 3 inches across, of a vivid orange-red, the recurved petals are covered with numerous small brown spots. The slender foliage is a deep rich green and the whole plant is of a distinct and graceful habit. Stem-rooting. July-August. 4 feet. Blooming size, 35c each. Large bulbs, 60c each.

A pleasing collection of low growing Lilies for your rock garden, woud be three each of *Amabile* (Grenadin red), *Davuricum* (Orange red), *Orange Queen* (Orange), *Tenuifolium* (Scarlet), for \$2.50.

LILUM WILLMOTTIAE

All Bulbs American Grown

MISCELLANEOUS BULBS

TIGRIDIAS

Nothing can surpass the gorgeous effectiveness of these summer flowering half hardy plants. The effect when a quantity of bulbs is massed together in a bed or in clumps is not easily forgotten. The bulbs should be planted in March and lifted in autumn. They are in a sense the flower of the day, but like many other short-lived gems they crowd into that period an intensity of brilliance and splendor never attained by any other long-lived flowers.

Pavonia Speciosa. Beautiful scarlet with yellow markings. 25c each; \$1.50 per doz.

We Sell No Imported Stock

SHEFFIELD BULB FARM

CHIONODOXA (Glory of the Snow)

Lucillae. One of the most lovely of our spring flowering bulbs. Some flowers are brilliant sky-blue, with white center, while others are pure white. 35c per doz.; \$3.50 per 100.

DOUBLE DAFFODIL

Alba Plena Odorata. Pure white, sweet scented; long stems; fine cut flowers. Early fall delivery only. \$1.00 per doz.

HEMEROCALLIS (Day Lily)

Showy, hardy garden plants with beautiful rich green leaves and large Lily-shaped blooms during the summer and fall. Attractive even when not in bloom.

Flava (Yellow Day Lily). The best known variety; very fragrant deep lemon yellow flowers in June and July; height, 2½ to 3 feet.

Fulva (Tawny Day Lily). Grows from 4 to 5 feet high, with trumpet-shaped flowers of a neutral orange color with darker shadings; June to July.

Luteola (Golden Day Lily). Bright golden-yellow with Indian-yellow shadings; June and July.

Middendorfii. The earliest to bloom, May; flowers bell-shaped, rich chrome yellow. 2 feet.

Any of the above 25c each; \$1.50 per doz.; one of each, \$1.00.

HYACINTHUS CANDICANS

A snow white summer flowering Hyacinth, growing 3 to 5 feet in height, gracefully surmounted with from twenty to thirty pure white, bell-shaped flowers. 25c each; \$1.00 per doz.; \$10.00 per 100.

MUSCARI (Grape Hyacinth)

Conicum. Medium blue, excellent for borders, rock gardens, pot culture or naturalizing. 35c per doz.; \$2.50 per 100.

SCILLA SIBERICA

These flourish in sun as well as in shade under trees. They are not particular about the soil in which they grow. They are ideal for the wild garden but are not to be despised in the border, especially if they are left alone for two or three years without being disturbed in any way. They are splendid in the rock garden. Produce drooping, bell-like flowers. 50c per doz.; \$3.50 per 100.

TULIPS

A Few of the Best

Allard Pierson. Darwin. Very fine dark red. Early forcer, new.

City of Haarlem. Darwin. Large scarlet, blue base.

Europe. Darwin, glowing salmon, scarlet, shaded rose. Good forcer.

Feu Brilliant. Darwin. Brilliant clear scarlet.

King Harold. Darwin Deep purple red with white base. Good forcer.

Petrus Hondius. Darwin. Bright carmine rose, fine for forcing and for Easter forcing.

Pride of Haarlem. Darwin. Bright rose. Good forcer and cut flower.

Prof Rauwenhoff. Darwin. Full cherry rose, with ivory white and blue at base. Good forcer.

Sieraad Van Flora. Darwin. Bright violet pink, blue base, fine forcer.

Wm. Copeland. Darwin. Bright violet, very early forcer.

Mrs. Moon. Cottage. Extra large pure yellow, very fine.

All 75c a dozen; \$5.00 per 100.

\$10.00 worth from this price list for \$8.50; \$5.00 worth for \$4.50.
